

SAIN SATION

(DIRECT LAUNCH BOX KNOCK-OFF)

Sain Sation also produces a knock-off which is a direct copy of the Magic-Flight Launch Box and is listed on websites under the Magic Flight name. This PDF will help distinguish the difference between the real and the counterfeit product.

- 1 Off-center logo sticker on lid instead of silk screened image.
- 2 Off-brand battery charger, batteries and brush. Misplaced click-lock.
- 3 No serial number on back of unit and "WHICH" misspelled.
- 4 Bunched screen and ill-fitting O-ring.

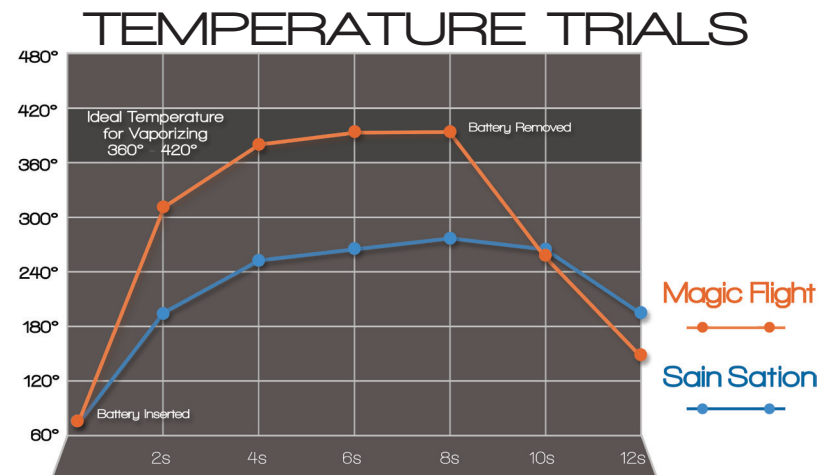

• **Visible Signs to Detect the Fake:** Magic-Flight glyph/aphorism is printed on a sticker instead of printed on tin lid, accessories and vaporizer come in plastic bags, odd grammar and misspellings in the instructions, click-lock for lid is located wrong side of vaporizer, "which" in the aphorism on back of the unit is misspelled as "whch," and no serial number on back of unit. Keep in mind some older MFLB kits have different batteries, chargers, and brushes, but units should ALWAYS have a serial number. *Launch Boxes without a serial number will not be accepted for warranty claims*

• **"LATEST 2013 MODEL," "Latest Version," "New Click Lock Version" used in product description:** There are no "new versions" of the MFLB and the click lock was added in 2012.

• **Numerous construction issues:** Mangled and ripped screen, spotty and weak bonds attaching screen to rails, incomplete bored holes with hanging debris, lid not flush with unit, broken parts, and O-ring around screen falling out.

• **Inefficient heat:** Temperature trials produced results that averaged a maximum temperature of about 300°.

• **Toxicity/Made in China:** Upon opening the tin, the immediate musk of phthalic acid, a softening agent added to plastics to make them more flexible (the "harbor freight" smell), is overwhelming and induced headaches and dizziness in the staff that tested this unit. We strongly advise against inhaling vapor from this unit.
